## supported living services

We provide specialist community support for individuals with an acquired brain injury (ABI). We develop holistic, interactive, empathetic and responsive options, with you at the centre of your rehabilitation process.

At Ariya we know that having the right team, maximises your ability to develop skills and strategies to improve your quality of life, engagement and confidence post injury.

We understand that an acquired brain injury has a massive impact on a person's lifestyle and self-confidence, but with our skilled and experienced staff team you can be supported to get the best from of your life, through effective community based rehabilitation.

## transitional/residential services

### **ROTHERHAM, SOUTH YORKSHIRE**

Clifton Court is a seven person transitional and residential service for individuals with an acquired brain injury (ABI). Comprised of high quality individual apartments with accessible kitchens, the service can support a spectrum of physical and cognitive needs. The service is designed support you to continue your rehabilitation and goals in an active, friendly and comfortable community setting.

The service will have clinical neuro-psychology overview, neuro-occupational therapy, neuro-physiotherapy and neuro-speech and language therapy as required.

## people we support

We are happy to discuss your needs informally, or through a free initial assessment to see how we may be able to help you.

We are able to support people with the following needs:

- Acquired brain injury (ABI)
- Cognitive and executive difficulties
- Communication difficulties
- Independent life skill development
- Dual diagnosis with mental health or emotional/behavioural needs
- Korsakoff's syndrome
- Epilepsy
- Physical difficulties/mobility needs
- Personal care
- Diabetes
- PEG feed

## our skilled support

Our staff team have on-going training in acquired brain injury, through our graded development programme. We believe that through encouraging and developing our staff, they are then better equipped to help you progress.

Following an assessment we will provide bespoke training, to the people involved in your support, specific to your needs.

The quality of our staff directly impacts on the quality of the service we provide, so we take great care in recruitment and training of our staff.
